

Santa Ynez High School Future Educators of America presents:

KindergartenReady

Receive helpful messages on how your
child can prepare for academic success!

KindergartenReady is a program launched by Santa Ynez High School's Future Educators of America. KindergartenReady uses the app *Remind* to send messages to a mass of people without the "group-text effect" of allowing recipients to reply. Our goal is to assist parents, daycare providers, and families with young children to build foundational literacy skills in fun and easy ways. Those who enroll will be sent a weekly text or email with a helpful tip on how to help their child continue to learn and grow intellectually. With summer approaching, it is crucial to keep your child involved in educational activities. These simple tips can be used for children from 2 years to 6 years. The program is set to last one year, so those who enroll will receive texts throughout summer as well as next school year. KindergartenReady is an easy and free opportunity.

You can sign up for Kindergarten Ready in ONE easy step:

To sign up using e-mail, see www.remind.com.

Text **@kready** (@included) to 81010

You should receive a message confirming your enrollment.

You will now be sent weekly tips!

Messages are sent every **Thursday at 6:30.**
